

BSGE / BSGI / BMUS VIRTUAL WORKSHOP: IMAGING FOR ENDOMETRIOSIS

Friday 9th July 2021

*Learning from each other:
A meeting for imaging specialists
and endometriosis surgeons.*

Bringing imaging specialists and endometriosis surgeons together to improve patient outcomes.

This course will be of value to gynaecologists, endometriosis surgeons, nurse specialists, sonographers and radiologists involved in the care of women with endometriosis. The course will be interactive and provide practical advice about the contemporary use of imaging to enhance the diagnosis of endometriosis, inform treatment planning and optimise treatment outcomes.
