

## British Society for Gynaecological Endoscopy (BSGE) Webinar series

# Handy hints for Hysteroscopy

Wednesday 28th May 2025 6:00pm (UK time)

Bleeding after endometrial ablation remains a clinical challenge. This interactive webinar will explore a structured approach to diagnosis and managing post-ablation bleeding. We will cover real life scenarios and evidence based strategies.

Whether you're a seasoned Hysteroscopist or developing your skills, join us for expert-led discussion, case-based learning and valuable "tips and tricks" you can apply in your next clinic or theatre list.
