

Hysteroscopy Operative Workshop 25

**Monday, 1st and Tuesday,
2nd December 2025**

Karl Storz Training and
Technology Centre,
415 Perth Avenue, Slough,
Berkshire, SL1 4TQ

Objectives:

- 1) To be familiar with operative hysteroscopy
- 2) Understand how to use different operative equipment
- 3) To provide lectures to cover ambulatory setting, troubleshooting, basics of operative hysteroscopy and analgesia.

Description:

The workshop will combine lectures, case studies discussion and practical stations. There will be practical rotational stations with hands-on removal of uterine pathology using different types of tissue removal devices and scissor & grasper and resectoscope. The practical sessions will use both models and simulators. The stations will include improving camera skills and hand-eye co-ordination in:

- 1) Operative hysteroscopy
- 2) Tissue removal devices
- 3) Resectoscope
- 4) Endometrial ablation

Registration fee:

BSGE members- £390 | Non-BSGE members- £465

Registration fee will include access to two day meeting, refreshments and lunch, network dinner plus one night accommodation at Premier Inn, West Slough booked by the BSGE.

Strictly for 20 delegates only.

A maximum of 13 CPD credits may be claimed for learning achieved at this meeting. The rate of claim is 1 credit per hour excluding breaks.
