

Is that bowel wall? How to deal with bowel dissection from simple to complex

Wednesday 18th March 2026 @ 6pm (UK time)

Join us for another BSGE webinar dedicated to one of the fundamental skills in endometriosis surgery: opening the pararectal and rectovaginal spaces. Our two speakers will take you through the spectrum of cases, from straightforward dissections to complex scenarios. The session will explore indications and surgical techniques.

Whether you're a trainee developing your surgical confidence or an experienced surgeon refining your approach, this webinar will offer valuable insights and practical tips to enhance your operative practice.

Moderator:
Angharad Jones
