

BSGE Hysteroscopy Operative Workshop

Monday, 13th and
Tuesday, 14th July 2026

Birmingham Conference and Events Centre
Hill Street, Birmingham B5 4EW

Objectives:

1 To be familiar with operative hysteroscopy

2 Understand how to use different
operative equipment

3 To provide lectures to cover ambulatory
setting, troubleshooting, basics of
operative hysteroscopy and analgesia

Description:

The workshop will combine lectures, case studies discussion and practical stations. There will be practical rotational stations with hands-on removal of uterine pathology using different types of tissue removal devices and scissor & grasper and resectoscope. The practical sessions will use both models and simulators.

The stations will include improving camera skills and hand-eye co-ordination in:

- | | |
|--------------------------|------------------------|
| 1 Operative hysteroscopy | 3 Resectoscope |
| 2 Tissue removal devices | 4 Endometrial ablation |

Registration fee:

BSGE members **£350**

Non-BSGE members **£425**

Registration fee will include access to two day meeting, refreshments, lunch and complimentary networking dinner at local restaurant.

Strictly for 20 delegates only.

A maximum of 13 CPD credits may be claimed for learning achieved at this meeting.

The rate of claim is 1 credit per hour excluding breaks.
